No

AZAGC 2014 Candidate Survey

Q9: If elected, and you are running for the Arizona Legislature or United States Congress, which committees would you most like to serve (in order of preference) and why?

Education - I support fully funding public education. Establishing and maintaining a strong public education system should be the first priority of any state legislature.

Health - I am a physician and strongly support access to excellent affordable healthcare for all Arizonans.

Higher Education and Workforce Development - Providing opportunities to improve earning potential is another important priority for our state.

Q10: Would you like us to contact you to make an appointment for an interview to seek our support? Yes

PAGE 4: Policy Questions

Q12: What are the greatest challenges for Arizona over the next two to four years?

Improving our state's system for public education (K-12 and post secondary education).
Also, improving Arizona economic opportunities.

Q13: What would you do to overcome these challenges?

Fully fund public education (K-12, vocational, and post secondary education including universities and community colleges). By improving our public education system and creating an educated workforce, businesses will be more likely relocate to Arizona.

Q14: Do you understand the relationship between infrastructure and the economy? Please explain.

Absolutely. Maintaining Arizona infrastructure (roads, highways, public transportation, water/electricity) is paramount in encouraging economic growth. I also believe that a sound system of public education is an integral part of any state's infrastructure.

Q15: Do you support or oppose government spending for the purposes of investment in public infrastructure (e.g., transportation, water resources, water infrastructure, public facilities, state/local buildings, etc.)? Support,
Why?
Because government support of infrastructure is an integral part of economic growth and stimulation.

Q16: Do you support or oppose raiding the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the state budget? Oppose,
Why?
These monies are earmarked for infrastructure. If we continue to raid these funds are infrastructure will become obsolete.

Q17: Would you support or oppose a referendum that closes the loophole that allows the Arizona Legislature to raid the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the budget? Support,
Why?
It would be reasonable for the legislature to ask the voters to approve this practice.

Q18: Would you support or oppose an initiative that closes the loophole that allows the Arizona Legislature to raid the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the budget?

Support,
Why?
If the citizens of our state feel that this is an important issue to put to a vote, then it should be put on the ballot.

Q19: Would you support or oppose authorizing an additional revenue source for public infrastructure?

Why?
We should first protect and maintain the original funding resources designed to support infrastructure.

Q20: Would you support or oppose a referendum that authorizes an additional revenue source for public infrastructure?

Why? See answer for question 8.

Q21: Would you support or oppose an initiative that authorizes an additional revenue source for public infrastructure?

Support,
Why?
If the voters want this option I would support it.

Q22: Do you support or oppose streamlining environmental regulations while weighing the impacts to both the economy and the environment.

Why?
Arizona economy is linked to our unique desert environment. I would always consider the economic implications of any proposed project as well as its potential impact on the environment.

Q23: Some localities are passing ordinances that allow preferences for local contractors to get a bid advantage because of business location. In some cases the advantage to the "local" contractor is as much as 5%. Do you support or oppose these ordinances?

Why?
I need to learn more about these types of ordinances.

Q24: Under the guise of promoting "local labor", unions are adding language to city contracts requiring contractors to have apprenticeship programs, health insurance, a living wage, etc. prior to qualifying to perform work for the city. Do you support or oppose these provisions in city contracts?

Why?
In general a living wage and access to affordable health insurance is important for workers. I need to learn more about how an apprenticeship program works.
