### PAGE 4: Policy Questions

**Q12: What are the greatest challenges for Arizona over the next two to four years?**

Economic development to keep our businesses healthy and our workers employed.

Education for our youth, because a well prepared and educated workforce, is our best hope for a long-term sustainability in a changing economic environment.

Water sustainability will be a major focus as the recovery brings in more people to our State.

**Q13: What would you do to overcome these challenges?**

Encourage and support business expansion, and focus our efforts on keeping the existing businesses strong, while supporting our new businesses get started.

Encourage more funding to programs such as JTED and CTE. By focusing on the programs that support our businesses we will home grow our workforce.

Bring the water issues back into the public discussion, and work on securing sustainable water supplies. By working together we will build a foundation on which our businesses can thrive.

**Q14: Do you understand the relationship between infrastructure and the economy? Please explain.**

Our existing infrastructure will need to support business expansion as the economy recovers, it is critical that we invest in replacing and protecting the weak links that can threaten our ability to grow. I am a strong advocate for investment in our infrastructure so that we can continue to grow our economy.

**Q15: Do you support or oppose government spending for the purposes of investment in public infrastructure (e.g., transportation, water resources, water infrastructure, public facilities, state/local buildings, etc.)?**

Support,

Why?

There is a growing need for the replacement and maintenance of the infrastructure throughout our State; an investment in our infrastructure yields long-term high returns through a growing economic base.
