PAGE 4: Policy Questions

Q12: What are the greatest challenges for Arizona over the next two to four years?

1. Reinvesting in public education
2. Stabilizing/diversifying our economy
3. Re-establishing a positive AZ image
4. Improving CPS system

Q13: What would you do to overcome these challenges?

All of these can be easily addressed by focusing on new priorities at the legislature. We must re-focus and re-prioritize the issues we work on.

Q14: Do you understand the relationship between infrastructure and the economy? Please explain.

Improving our infrastructure creates immediate jobs and prepares our state for the future. This improves our economy.

Q15: Do you support or oppose government spending for the purposes of investment in public infrastructure (e.g., transportation, water resources, water infrastructure, public facilities, state/local buildings, etc.)? Support,
Why?
These all need improvements. All require at least some government funding.

Q16: Do you support or oppose raiding the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the state budget? Oppose,
Why?
The HURF fund (and various other fund) sweeps are a bad way to budget.

Q17: Would you support or oppose a referendum that closes the loophole that allows the Arizona Legislature to raid the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the budget? Support,
Why?
I would support giving voters the chance to decide this issue. I'm confident voters would understand the importance of the HURF and VLT funds and why allowing raids would not be beneficial.

Q19: Would you support or oppose authorizing an additional revenue source for public infrastructure?	Support, Why? I believe my constituents would generally support this concept as well.

Q21: Would you support or oppose an initiative that authorizes an additional revenue source for public infrastructure?	Support, Why? Same answer as above.
Q22: Do you support or oppose streamlining environmental regulations while weighing the impacts to both the economy and the environment.	Why? Cannot support or oppose without more specific examples. Environmental regulations are critically important so each should be thoroughly evaluated before "streamlining."
Q23: Some localities are passing ordinances that allow preferences for local contractors to get a bid advantage because of business location. In some cases the advantage to the "local" contractor is as much as 5%. Do you support or oppose these ordinances?	Support, Why? I generally support preferences for local business if they are done correctly.
Q24: Under the guise of promoting "local labor", unions are adding language to city contracts requiring contractors to have apprenticeship programs, health insurance, a living wage, etc. prior to qualifying to perform work for the city. Do you support or oppose these provisions in city contracts?	Support, Why? Contractual terms are negotiated between the 2 parties. If both parties find these provisions beneficial and approve that contract, then the state should not interfere.
