Yes,
Election year and office(s):
2010 Arizona State Senate 2012 Arizona State Senate

AZAGC 2014 Candidate Survey

Q9: If elected, and you are running for the Arizona Legislature or United States Congress, which committees would you most like to serve (in order of preference) and why?

I am The sitting Chairman of the Appropriations committee and expect to remain so. I am also on Public Safety, and Rural Affairs Committees

Q10: Would you like us to contact you to make an appointment for an interview to seek our support? Yes

Q11: Would you be interested in visiting AZAGC member project sites? Yes

PAGE 4: Policy Questions

Q12: What are the greatest challenges for Arizona over the next two to four years?

Surviving horrific Economic policies from Washington which hinder economic recovery, which in turn make it very difficult for us at the state level to provide necessary good and services for our people because of lack of revenues.

Q13: What would you do to overcome these challenges?

try to support the business climate in Arizona as much as possible so that business can create the wealth necessary to grow and prosper

Q14: Do you understand the relationship between infrastructure and the economy? Please explain.

it doesn't do much good to have factories if you don't have any roads to get to them.

Q15: Do you support or oppose government spending for the purposes of investment in public infrastructure (e.g., transportation, water resources, water infrastructure, public facilities, state/local buildings, etc.)?

Support,
Why?
once again, the infrastructure component is necessary for economic growth. That is one of the reasons I support the dialogue on the recent University research infrastructure proposal.

Q16: Do you support or oppose raiding the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the state budget?

Support, Oppose,
Why?
in a normal situation ,of course I would oppose Raiding these funds, unfortunately I have never been in a "normal" budget situation but in spite of our situation I have been trying to find a way to try to restore these funds as much as possible, as soon as possible.

Q17: Would you support or oppose a referendum that closes the loophole that allows the Arizona Legislature to raid the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the budget?

Oppose,
Why?
because like many referendums, it removes the ability to adjust budgets according to prevailing economic circumstances.

Q18: Would you support or oppose an initiative that closes the loophole that allows the Arizona Legislature to raid the Highway User Revenue Fund (HURF) and Vehicle License Tax (VLT) to balance the budget?

Oppose,
Why? same reason

AZAGC 2014 Candidate Survey

Q19: Would you support or oppose authorizing an additional revenue source for public infrastructure?	Support, Why? the current gas tax structure is terribly outdated , instead of a fixed amount we should look very hard at establishing a percentage rate tax that adjusts for the rise in fuel prices and inflationI would be very willing to look at a proposal like that which might help alleviate our current problems.
Q20: Would you support or oppose a referendum that authorizes an additional revenue source for public infrastructure?	Support, Oppose, Why? depends on what it is
Q21: Would you support or oppose an initiative that authorizes an additional revenue source for public infrastructure?	Support, Oppose, Why? depends on what it is
Q22: Do you support or oppose streamlining environmental regulations while weighing the impacts to both the economy and the environment.	Support, Why? because most of them are ridiculous and only add additional cost to doing business.
Q23: Some localities are passing ordinances that allow preferences for local contractors to get a bid advantage because of business location. In some cases the advantage to the "local" contractor is as much a 5%. Do you support or oppose these ordinances?	Oppose, Why? I oppose any interference in the market place whenever possible
Q24: Under the guise of promoting "local labor", unions are adding language to city contracts requiring contractors to have apprecticeship programs, health insurance, a living wage, etc. prior to qualifying to perform work for the city. Do you support or oppose these provisions in city contracts?	Oppose, Why? once again it is interfering in the" market" for labor.
